The AI Influencer Prompt Library

30 copy and paste prompts to create your own AI influencer with free tools.

By Regine, The 1% Club

WELCOME

Hi, I'm Regine.

The woman in every photo of this book is my AI twin. I built her with free tools, a lot of trial and error, and the exact prompts you are about to copy.

This library is for you if you already play with AI a little and want a real, consistent AI influencer for your side hustle. Copy a prompt, change the words in [brackets], and make it yours.

BEFORE YOU START

Your Free Toolkit

- **Google Gemini**: makes and edits images. You can upload a reference photo so the face stays the same. Free with a Google account.

- **ChatGPT**: writes your character profile, bio, captions and plans. The free plan is enough.

- **Canva**: adds text to your images and builds carousels. The free plan is enough.

GOOD TO KNOW

Free plans have daily limits. If a tool says you reached the limit, save your prompt and continue tomorrow. Tools change often, so if a button moved, look for "create image" or the image icon.

THE SECRET

The 6 Part Prompt Formula

Every image prompt in this book follows the same recipe. Learn it once and you can write your own.

1. Who	Same woman as my reference photo
2. Outfit	Colour, fabric and cut: "a tailored camel blazer over a cream top"
3. Place	Where she is, with 2 or 3 details
4. Action	What she is doing and where she looks
5. Light	Where the light comes from and its colour
6. Finish	Lens, skin texture, "Photorealistic. 4:5."

GOLDEN RULE

Upload your reference photo FIRST, then paste the prompt. Change only one thing at a time.

HOW TO USE THIS BOOK

Go in order the first time. Step 1 gives you the face that every other prompt uses.

STEP 1 · PROMPT 01

Dream Up Your Character

What it makes: a full profile of your AI influencer, so every image and caption feels like one person.

Free tool: ChatGPT (free)

Quick win tip: save the answer in your notes. You will reuse it in every prompt.

COPY THIS PROMPT

Act as a personal brand strategist. Create an AI influencer for the niche of [your niche] who speaks to [your audience]. Give me her name, age, home city, personality in 3 words, signature style, 3 favourite colours, 5 content pillars and one sentence that describes how she looks, written as an image prompt.

EXAMPLE ANSWER

Mira, 27, Kuala Lumpur. Calm, curious, polished. Tailored neutrals, gold hoops. Pillars: routines, smart tools, cafes, style, honest lessons.

STEP 1 · PROMPT 02

Your First Base Portrait

What it makes: the very first face of your influencer. This becomes the reference photo for everything else.

Free tool: Google Gemini (free)

Quick win tip: make 4 versions and keep the one that feels most real, not the most perfect.

COPY THIS PROMPT

Close up portrait of a woman in her mid 20s, [paste the look sentence from Prompt 01], long dark hair, wearing a cream chunky knit sweater, standing in a bright kitchen, soft window light from the left, gentle rim light on her hair, natural skin texture with pores, relaxed half smile, looking at the camera. Photorealistic. 4:5.

STEP 1 · PROMPT 03

The Clean Reference Photo

What it makes: a plain studio photo with even light. AI tools copy faces best from simple, clear photos like this.

Free tool: Google Gemini (free)

Quick win tip: upload your base portrait first, then use this prompt.

COPY THIS PROMPT

Same woman as my reference photo. Chest up studio portrait, wearing a black blazer over a white scoop top, arms crossed, plain grey backdrop with a soft round spotlight behind her, soft key light on her face, neutral confident expression, looking straight at the camera. Photorealistic. 4:5.

STEP 1 · PROMPT 04

The Professional Headshot

What it makes: a clean, trustworthy profile photo for your bio and brand pitches.

Free tool: Google Gemini (free)

Quick win tip: upload your reference photo first so the face stays the same.

COPY THIS PROMPT

Same woman as my reference photo. Professional headshot, wearing a tailored camel blazer over a cream top, arms softly crossed, warm beige studio backdrop, soft even light, 85mm lens, natural skin texture, calm confident smile. Photorealistic. 4:5.

STEP 2 · PROMPT 05

Same Face, New Outfit

What it makes: your influencer in a new look without losing her face.

Free tool: Google Gemini (free)

Quick win tip: change only ONE thing at a time: outfit OR place OR light. Changing everything at once makes the face drift.

COPY THIS PROMPT

Same woman as my reference photo, keep her exact face, hair and earrings. Now wearing a black blazer over a black top, on a city rooftop at blue hour, blurred city lights behind her, looking slightly off camera, cool ambient light with warm light on her face. Photorealistic. 4:5.

STEP 2 · PROMPT 06

Same Face, New Place

What it makes: your influencer walking into a new location, still clearly the same person.

Free tool: Google Gemini (free)

Quick win tip: describe the place in detail and the face in one short line. The tool already has her face from your photo.

COPY THIS PROMPT

Same woman as my reference photo. Wearing a charcoal wool overcoat over a black turtleneck, pushing open tall brass doors into a marble hotel lobby, a doorman in the background, glancing back over her shoulder at the camera, warm golden light from inside the lobby, three quarter body shot. Photorealistic. 4:5.

STEP 2 · PROMPT 07

Fix a Face That Drifted

What it makes: a rescue prompt for when the AI gives you a different woman.

Free tool: Google Gemini (free)

Quick win tip: upload BOTH photos: your reference first, then the wrong image. Ask it to fix only the face.

COPY THIS PROMPT

The first image is my character. The second image changed her face. Edit the second image so her face matches the first image exactly: same eye shape, nose, lips, jawline, mole and earrings. Keep everything else in the second image the same: outfit, pose, background and light. Photorealistic. 4:5.

STEP 3 · PROMPT 08

The Late Night Desk

What it makes: a cosy work moment that makes your influencer feel human and hardworking.

Free tool: Google Gemini (free)

Quick win tip: a warm lamp plus a blue window is the easiest way to make a photo look like a real evening.

COPY THIS PROMPT

Same woman as my reference photo. Wearing a black chunky knit sweater, sitting at an office desk at blue hour, keyboard, mug and mesh chair, chin resting on her hand, smiling at the camera, warm brass desk lamp from the left, blue city windows behind her. Photorealistic. 4:5.

STEP 3 · PROMPT 09

Planning in a Notebook

What it makes: a calm planning scene for posts about goals, routines and productivity.

Free tool: Google Gemini (free)

Quick win tip: ask for a BLANK notebook. AI writing on paper usually looks like nonsense.

COPY THIS PROMPT

Same woman as my reference photo. Wearing an ivory linen shirt with sleeves rolled up, writing in an open blank notebook in a dark study, smiling at the camera, warm brass desk lamp from the left, low light, cosy mood. Photorealistic. 4:5.

STEP 3 · PROMPT 10

Morning Coffee at Home

What it makes: a bright morning routine shot, perfect for 'day in my life' posts.

Free tool: Google Gemini (free)

Quick win tip: action shots (pouring, writing, walking) look more real than standing poses.

COPY THIS PROMPT

Same woman as my reference photo. Wearing a black short sleeve collared knit, pouring coffee from a glass pour over into a mug in a bright condo kitchen with city towers outside, looking down and smiling, sunlight from the window on the left. Photorealistic. 4:5.

STEP 3 · PROMPT 11

Rainy Day Cafe

What it makes: a moody cafe moment that feels like a real weekend photo.

Free tool: Google Gemini (free)

Quick win tip: rain on the window plus soft daylight hides small AI mistakes and adds mood.

COPY THIS PROMPT

Same woman as my reference photo. Wearing a charcoal chunky crewneck knit, sitting in a cosy cafe by a rainy window, holding a matte black coffee bag with a plain label, looking at the camera with a soft smile, overcast window light from the right, blurred cafe behind. Photorealistic. 4:5.

STEP 3 · PROMPT 12

Hotel Check In

What it makes: a travel moment that makes your feed feel like a real life on the move.

Free tool: Google Gemini (free)

Quick win tip: add one small human detail (a welcome drink, a cold towel). It makes the scene believable.

COPY THIS PROMPT

Same woman as my reference photo. Wearing a beige linen button shirt with a crossbody bag, seated in a hotel lobby armchair next to white orchids, a staff member handing her a welcome drink and a cold towel, warm soft lobby light, relaxed happy expression. Photorealistic. 4:5.

STEP 3 · PROMPT 13

The Quiet Window Moment

What it makes: a thoughtful, editorial shot for reflective captions.

Free tool: Google Gemini (free)

Quick win tip: not every photo needs eye contact. Looking down feels candid.

COPY THIS PROMPT

Same woman as my reference photo. Wearing a charcoal fine knit crewneck, standing at a large window looking down at a printed photo in her hands, her soft reflection in the glass, overcast daylight, calm and thoughtful. Photorealistic. 4:5.

STEP 4 · PROMPT 14

Street Style Walk

What it makes: a full body fashion shot on a European street.

Free tool: Google Gemini (free)

Quick win tip: say 'full body' and name the shoes, or the AI may cut off her feet.

COPY THIS PROMPT

Same woman as my reference photo. Full body shot, wearing a long cream wool coat over a cream suit, brown loafers and a tan shoulder bag, walking across a cobbled street with tram lines in Milan, cafes blurred behind her, soft overcast light. Photorealistic. 4:5.

STEP 4 · PROMPT 15

Golden Hour Doorway

What it makes: an elegant evening look with warm city light.

Free tool: Google Gemini (free)

Quick win tip: dusk light is forgiving and flattering. Try it when a photo looks too flat.

COPY THIS PROMPT

Same woman as my reference photo. Wearing a cream linen suit over a black top, opening a wrought iron gate at an old Milan doorway, smiling at the camera, dusk with warm street lamps, shot from the shins up. Photorealistic. 4:5.

STEP 4 · PROMPT 16

The Luxury Car Editorial

What it makes: a bold, aspirational shot for big moment posts.

Free tool: Google Gemini (free)

Quick win tip: ask for a car with NO badges or logos so your image stays clean.

COPY THIS PROMPT

Same woman as my reference photo. Wearing an ivory linen shirt tucked into black tailored trousers, hands in pockets, leaning on a matte grey sports coupe with no logos, empty desert road, city skyline in the distance, golden hour backlight. Photorealistic. 4:5.

STEP 4 · PROMPT 17

The Sunset Walk

What it makes: a confident 'walking toward you' shot, great as the last slide of a carousel.

Free tool: Google Gemini (free)

Quick win tip: walking toward the camera reads as confident. Use it for calls to action.

COPY THIS PROMPT

Same woman as my reference photo. Wearing an ivory linen shirt and beige pleated wide leg trousers, walking toward the camera holding car keys, a matte grey coupe behind her, city skyline at sunset, warm light from behind. Photorealistic. 4:5.

STEP 5 · PROMPT 18

Hold the Product

What it makes: a clean product shot with your influencer, the classic brand post.

Free tool: Google Gemini (free)

Quick win tip: describe the product fully EVERY time (colour, material, label). AI forgets between images.

COPY THIS PROMPT

Same woman as my reference photo. Wearing an oatmeal linen button shirt, holding a matte black coffee bag with a plain blank label at chest height, plain white wall, soft even front light, friendly smile. Photorealistic. 4:5.

STEP 5 · PROMPT 19

The Product Portrait

What it makes: a moody close up where the product and the face share the spotlight.

Free tool: Google Gemini (free)

Quick win tip: a dark backdrop makes both the face and the product pop.

COPY THIS PROMPT

Same woman as my reference photo. Wearing a charcoal linen button shirt, holding a matte black coffee bag with a plain blank label close to her cheek, dark slate studio backdrop, soft key light from the left, subtle smile. Photorealistic. 4:5.

STEP 5 · PROMPT 20

The Portfolio Wall

What it makes: your influencer presenting her work, perfect for 'here is what I made' posts.

Free tool: Google Gemini (free)

Quick win tip: ask for framed images WITHOUT text, then add your own text later in Canva.

COPY THIS PROMPT

Same woman as my reference photo. Wearing a black blazer over a white tee, pointing at a white gallery wall with framed product ads (a perfume bottle on sand, a sneaker on a neon street, a coffee cup), no readable text, soft even gallery light. Photorealistic. 4:5.

STEP 5 · PROMPT 21

The Invitation Card

What it makes: a 'this is for you' shot, great for announcements and offers.

Free tool: Google Gemini (free)

Quick win tip: keep the card blank, then add your own words in Canva so the spelling is perfect.

COPY THIS PROMPT

Same woman as my reference photo. Wearing a navy silk button blouse, holding a blank cream card out toward the camera, plain cream wall, soft even front light, warm smile. Photorealistic. 4:5.

STEP 6 · PROMPT 22

Soft Window Light

What it makes: the most natural light there is. Use it when a photo looks plastic.

Free tool: Google Gemini (free)

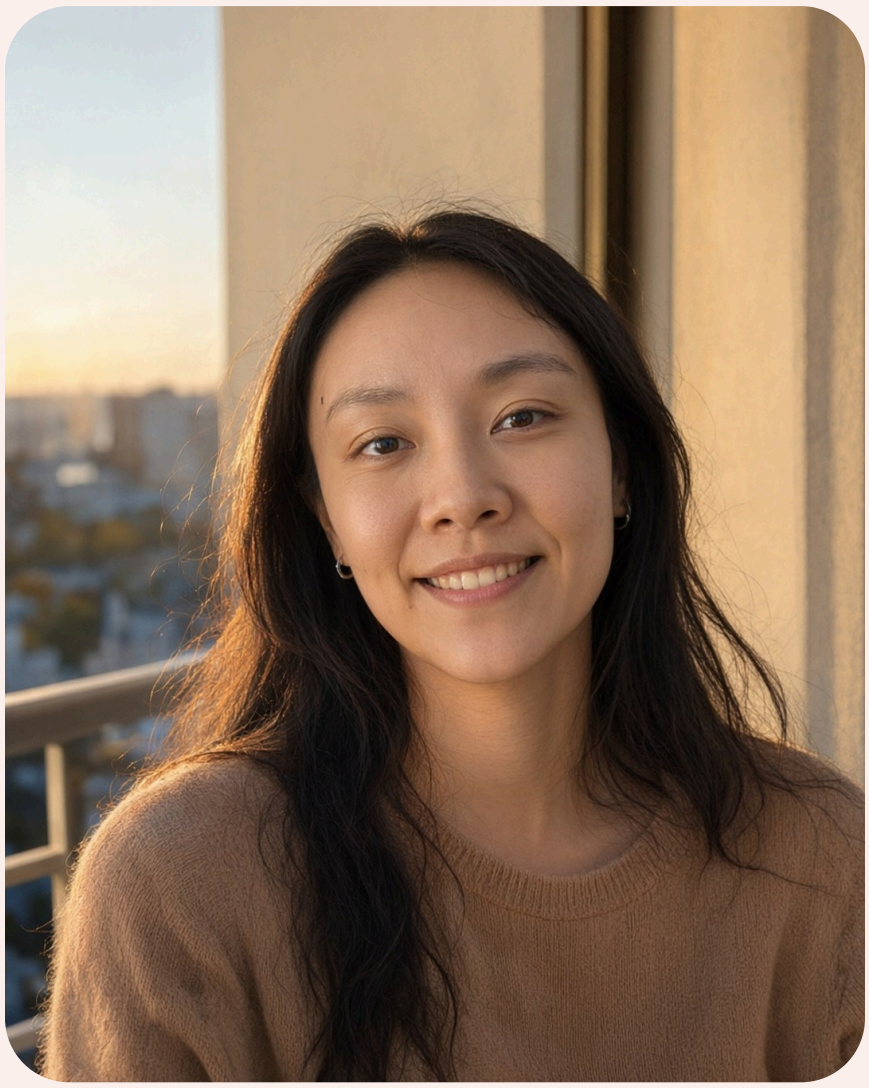

Quick win tip: light from ONE side creates shadows, and shadows make faces look real.

COPY THIS PROMPT

Same woman as my reference photo. Wearing a white cotton shirt, standing beside a window, soft daylight from the left falling across her face and a plain white wall, gentle shadow on the right side of her face, eyes softly closed, peaceful. Photorealistic. 4:5.

STEP 6 · PROMPT 23

Golden Hour Glow

What it makes: warm, flattering sunset light for your most liked posts.

Free tool: Google Gemini (free)

Quick win tip: add 'rim light on her hair'. That glowing edge is what cameras catch at sunset.

Same woman as my reference photo. Wearing a camel knit crewneck, standing on a balcony at golden hour, warm sunlight from the side, rim light on her hair, smiling at the camera, 50mm lens. Photorealistic. 4:5.

STEP 6 · PROMPT 24

Sunrise Backlight

What it makes: a soft, hopeful morning mood.

Free tool: Google Gemini (free)

Quick win tip: mention a real lens (35mm, 50mm, 85mm). It tells the AI to think like a photographer.

COPY THIS PROMPT

Same woman as my reference photo. Wearing a sage green knit crewneck, holding a coffee mug, sunrise behind her, glowing rim light on her hair, soft smile at the camera, calm morning mood, 35mm lens. Photorealistic. 4:5.
